About Pivotal Metals

Pivotal Metals Limited (ASX:PVT) is an explorer and developer of world-class critical mineral projects.

Pivotal holds 100% of the flagship Horden Lake property, which contains a JORC compliant Indicated and Inferred Mineral Resource Estimate of 27.8Mt at 1.49% CuEq, comprising copper, nickel, palladium and gold. Pivotal intends to grow the mineral endowment of Horden Lake, in parallel with de-risking the project from an engineering, environmental and economic perspective.

Horden Lake is complemented by a 100% owned battery metals exploration portfolio in Canada. The package comprises the Midrim, Laforce, Alotta and Lorraine high-grade nickel copper PGM sulphide projects, located within the prolific Belleterre-Angliers Greenstone Belt in Quebec. Pivotal intends to build on historic exploration work to make discoveries of scale which can be practically bought into production given their proximity to the world famous Abitibi mining district.
